

SAINTY Storm Front Door

Full name : Aluminum Storm Front Door For Villa

- Sash weight up to 200 kg
- Dimensions up to 2000 mm wide and 2600 mm high.

A full view storm door design features energy-efficient tempered glass, durable enough to withstand inclement weather conditions and break-ins while providing your home a sleek and modern design. The full view design also comes standard with a high-quality locking mechanism so you can screen unexpected visitors without opening up your home entirely.

Lock Option

Automatic deadbolt

Additional locking points at the upper end provide a higher safety factor. The automatic inclined tongue can be extended from 10mm to 20mm after locking. And the self-fixing tongue cannot be forced back by hand.

Inclined deadbolt

left and right can be changed. It may also be possible to apply pass the EU test. Selection of accessories for fire detection.

Square deadbolt

20 mm extension with single turn, easier and safer.

Bottom automatic deadbolt

Additional locking points at the bottom end provide a higher safety factor. The automatic inclined tongue can be extended from 10mm to 20mm after locking. And the self-fixing tongue cannot be forced back by hand.

Square shaft hole

Available in 8mm, 9mm, 10mm

Lock cylinder hole

Suitable for European standard gourd type lock cylinder and Ø22mm round lock core optional.

Side Sash Lock Option

More security

The lock ensures that 1 and 2-leaf house entrance doors and apartment doors made of timber, plastic and metal profiles can be locked and unlocked effortlessly and reliably. When the door is pulled shut, the Automatic latchbolts are immediately triggered automatically and activate the SH bolts. The SH bolts now engage with the frame parts, irrespective of the position of the Automatic latchbolt. The SH bolts move into the top of the frame, which prevents would-be burglars from levering out the door, and also guarantees outstanding functional reliability when lowering the door. The locking elements are secured against being forced back.

More convenience

GU-SECURITY Automatic-DR – double burglar protection without even turning a key: the Automatic-DR mechanical self-locking exit device dispenses with manual locking. Simply pull the door shut: the Automatic latchbolt and SH bolt extend automatically when the door engages in the lock.

Premium Coastal Impact Glass

Premium Coastal Windows and Doors feature heavy-duty impact-resistant glass that consists of a tough laminated interlayer bonded between two panes of glass. This impact-resistant layer helps prevent flying debris from entering the home in strong/severe windstorms. Find out more about Weather Shield's glass options on pages 18 and 19.
